

REMARKS

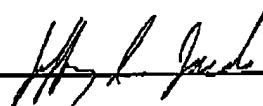

The applicants respectfully disagree with the Examiner's rejections set forth in the present office action. However, desiring to expedite the issuance of a patent for the present invention and in view of the Examiner's indications of amendments that would confer allowance, the applicants have amended the claims in accordance with the Examiner's suggestions. Specifically, the applicants have undone the amendments made in the previous response (resulting in new claims 16-20, which correspond to the previously canceled claims). The applicants have also rewritten claims 4 and 7 in independent form as claims 1 and 5 and have added method language to claims 8 and 11 to correspond to allowed language in previous claims 4 and 7.

No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record and in condition for allowance. Therefore, allowance of this case is earnestly solicited.

The Examiner is invited to contact the undersigned, if such communication would advance the prosecution of the present application. Lastly, please charge any additional fees (including extension of time fees) or credit overpayment to Deposit Account No. 502117 -- Motorola, Inc.

Respectfully submitted,
G. Agami et al.
